

# Aquamax

THE WATER JETTING EXPERTS

## High-speed Line Removal & Water Cutting

- Metro road marking removal
- Highway road marking and ATP removal
- Runway rubber removal
- Water cutting / bitumen flushing

**Stripe Hog** has become the globally recognised leader in UHP line removal, runway rubber removal and water cutting. Aquamax is delighted to bring a Stripe Hog SK3000 into the New Zealand market to assist customers.

**Our new Stripe Hog SK3000** delivers best-in-breed line removal and water cutting to customers throughout New Zealand. The machine is equipped with a high-capacity UHP pump which delivers 22.7 lpm at 40,000 psi. A high-powered vacuum system takes care of blasting waste and a ride-on 'mower' system is used for control of the cutting head.

A range of cutting heads from 150 – 600 mm can be fitted enabling blasting for a variety of applications.

### Productivity Guide

100 mm line removal	1500 – 2500 m per day
Water cutting	1500 – 2500 sqm per day
